

BLACKBIRD III MEMORY BARCODE READER

Performance and Ergonomics

The Peninsula Blackbird III provides two outstanding barcode readers in one.

The Blackbird III is a fully featured Memory Collector Batch scanner, with a 15,000 scan memory.

This allows you to collect barcodes remotely anywhere for later download. Once you are back at base simply click the trigger to download the barcode data straight into your application, no software required.

The Blackbird III barcode scanner pretends it is another keyboard eliminating the need for extra boxes or software, everything is built into the scanner itself.

Easy quantity recording using the enclosed scan card.

No extra power supply is required unlike most rechargeable, wireless barcode scanners, simply plug into the USB.

The Blackbird III is easy to set up, simply plug in and start scanning, can read all common barcode types, ie EAN13, UPC, Code39, Code 128 and many others including specialist codes such as Databar 14.

Ideal for remote data collection, ie Inventory, Attendance Recording, Asset and Item Tracking. If you require a complete system take a look at our QuickTrack Pro software which can achieve all these tasks.

Support, Reliability and Stability

We back our products with a Free Full Technical Support service via email. We have over twenty years experience of Barcoding and are proud to have as our customers companies such as Marks & Spencer, Dyson, Black & Decker, Pedigree Pet Foods and Cambridge University Press.

We are here to help, give advice and guide you when you need to use barcoding or labelling in any aspect of your business.

Please feel free to call us or visit our website at www.barcodereaders.com.

FEATURES

- Imager Scanner, no moving parts, easy to clean, requires

USES

- Retail
- Healthcare and Medical
- Inventory and Stock Control
- Office Automation
- Document Tracking
- Light Industrial
- Asset and Item Tracking
- Library Applications

PLATFORMS

Apple Macintosh Computers OSX 10.0 and above including 10.6

PC Windows 2003, XP, Vista, And 7

Interfaces Available

PC (Windows, Linux, DOS, and other OSs supported)

PC USB

Apple Macintosh (including iMac, iBook, Power Macintosh)
Supports OSX

Apple Macintosh USB

Electrical

Voltage 5v +- 5%
In Use 190mA
Standby Current 2mA
Standards EMI CE, FCC Class A
Can Be Powered from USB

Environmental

Operating Temperature 0° C - 40° C
Storage Temperature -20° C - 65° C
Relative Humidity 0% - 95% non-condensing

Memory

Memory Capacity - 192kb,
15,000 13 digit barcodes

Battery

1.8 meter (70 inch)
Lithium Ion
1100 mAh
40,000 scans per charge
Recharge via USB
Full recharge time 4 hrs

Wireless

Bluetooth R 1,1 HID profile
50m - 70m working distance
Unlimited in memory mode

Warranty

1 Year RTB

Optical

Red LED array (626nm)

Free Software

QuickTrack Start Tracking
Software

Barcode Types Supported

Code 39, Code 128, EAN 13
EAN 8, EAN 128, Interleaved 2
of 5 (ITF), 2 of 5 Industrial
